

## **INTRODUCTION to TRADITIONAL SOAP MAKING**

with Alisa Andrews, herbalist, [www.flamingmaple.com](http://www.flamingmaple.com)

\$35 (materials included)

*When:*

1:00 - 4:00 pm Saturday, October 10th 2009 (register by September 19<sup>th</sup>)

*Where:*

The Barnosky home, in Peterborough  
(though if you'd like to arrange a host church in Keene, that'd be great :)

*What:*

An afternoon of old-fashioned soap making. Using natural ingredients and essential oils, we'll make a batch of beautiful aromatic soap. Discussion will include: recipes, customization ideas, soap molds, books, and supplies. We'll also discuss the history and basic chemistry of this fascinating process and have time for questions. Each student will go home with a soap sample to cut and age, as well as a detailed handout.

*Who:*

This class is geared towards adults. Interested students as young as 12 may participate along with a parent (both would need to pay)... Call if you have any age concerns. Because we will be using lye, this class isn't suitable for young children. Class size: between 8 and 15 students.

*Bring:*

A quart-sized milk carton to use as your mold, and an old towel or small blanket.

*Contact:*

Bethany Barnosky (Alisa's sister); 603-924-0130; [www.candlestarservices.com](http://www.candlestarservices.com)
